

Les 5 principes de l'arrosage avant la sortie des racines

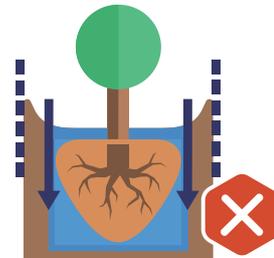

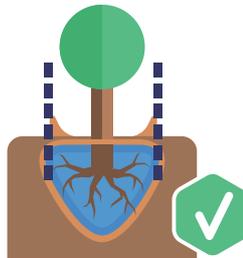

Objectif

- ▶ Apporter de l'eau aux racines
- ▶ Les racines sont dans la motte
- ▶ Ré-humecter la motte

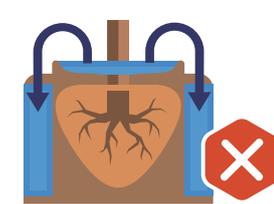

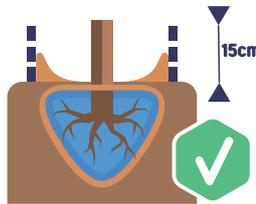

1

Diamètre de la cuvette
<
Diamètre de la motte

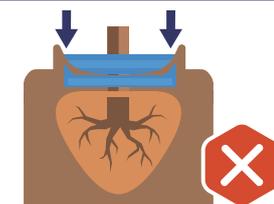

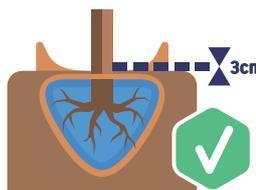

2

Hauteur de la cuvette
>15cm

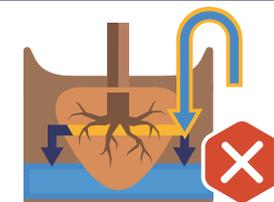

3

La terre sur la motte
<3cm

4

Pas de drain pour
95%
des cas

5

Fractionner l'arrosage
pour les gros volumes
